

BRAND GUIDELINES

SPRAY LIQUID GREEN — SPRAY FOAM INSULATION

Visual identity system covering logo usage, color palette, typography, iconography, UI components, and digital standards.

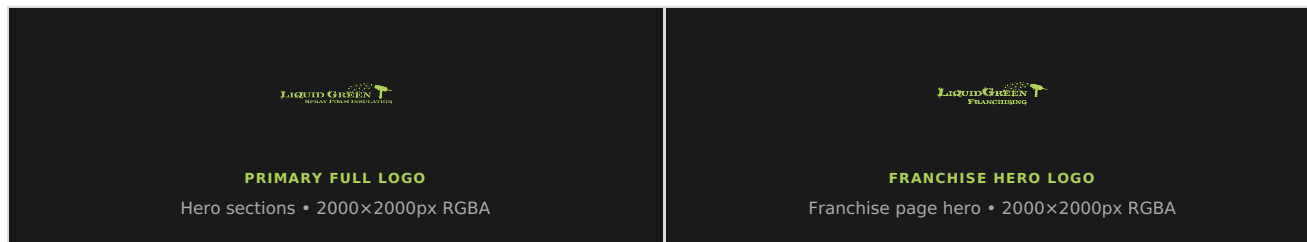

Version 1.0 • June 2025

LOGO SYSTEM

The Liquid Green brand uses three distinct logo assets, each serving a specific role. All logos must be used as-is with no modifications, distortion, or color changes.

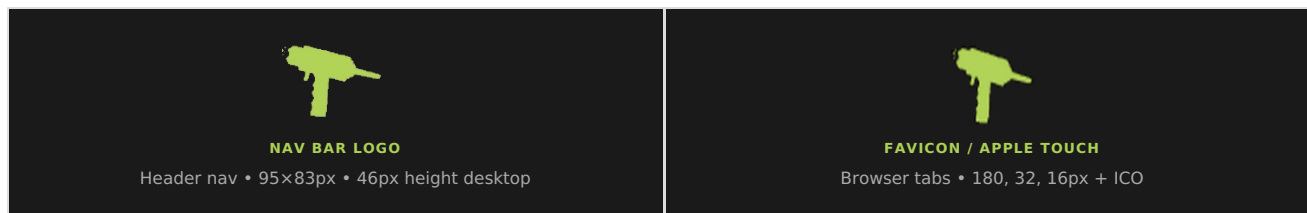

PRIMARY FULL LOGO

The complete wordmark displaying "LIQUID GREEN SPRAY FOAM INSULATION" in the Rubik Distressed typeface. Used for hero sections and large-format placements.

NAVIGATION ICON — SPRAY GUN

The lime-green spray paint gun silhouette. Used in the header navigation bar and as the browser favicon.

LOGO SIZING REFERENCE

- ✓ Home/ franchise hero logo: width: min(580px, 90vw) with drop-shadow
- ✓ Nav bar spray gun: height 46px (desktop), 36px (mobile)
- ✓ Favicon: 32×32 standard, 180×180 Apple Touch

COLOR SYSTEM

The Liquid Green palette is built on a dark foundation with a signature lime accent and purple secondary. This high-contrast system creates a bold, professional, and energetic identity.

ICONOGRAPHY

All custom icons use a consistent SVG style: 24x24 viewBox, no fill, lime-green strokes with square line caps. This creates a unified, industrial aesthetic matching the brand's construction focus.

SVG ICON SPECIFICATION

```
viewBox: "0 0 24 24"  
fill: "none"  
stroke: "#ACD155"  
stroke-width: "1.5"  
stroke-linecap: "square"
```

BUTTONS

Buttons use sharp corners (border-radius: 0) for an industrial, no-nonsense look. All buttons share a consistent hover effect: translateY(-3px) with a deep shadow and lime border highlight.

BUTTON VARIANTS

BUTTON SPECIFICATION

```
font-family: 'Raleway', sans-serif;
font-weight: 700;
font-size: 13px;
letter-spacing: .1em;
text-transform: uppercase;
min-height: 48px;

border: 2px solid var(--lime);
border-radius: 0; /* No rounded corners */

/* Hover */
transform: translateY(-3px) scale(1.02);
box-shadow: 0 14px 38px rgba(0,0,0,.28);
border-color: var(--lime-bright);
```

USAGE NOTES

- ✓ Primary buttons: Lime background with dark text — used for main CTAs
- ✓ Outline buttons: Transparent with lime border and text — used for secondary actions
- ✓ Purple buttons: Purple background with white text — used only for franchise-related CTAs
- ✓ All buttons share the same hover animation system defined in CSS custom properties

HERO OVERLAY

The hero sections use a dark semi-transparent overlay over the video or image background. This matches the original sprayliquidgreen.com Wix-built site's treatment and ensures text readability while preserving the visual impact of the background media.

OVERLAY SPECIFICATIONS

RGBA(0,0,0,.66) — HERO VIDEO OVERLAY

```
/* Home page hero video overlay */
.hero-video .hero-overlay {
  background: rgba(0,0,0,.66);
  z-index: 2;
}

/* Inner page hero video overlay */
.page-hero.page-hero-video .hero-overlay {
  background: rgba(0,0,0,.66);
}

/* Inner page hero image overlay */
.page-hero .hero-overlay {
  background: linear-gradient(135deg, rgba(26,26,26,.88), rgba(38,38,38,.7));
}
```

HERO LOGO TREATMENT

The full Liquid Green logo sits on top of the overlay with a subtle drop-shadow for depth separation:

```
.hero-logo-wrap img {
  width: min(580px, 90vw);
  filter: drop-shadow(0 4px 20px rgba(0,0,0,.5));
}
```

SOCIAL MEDIA ICONS

All social media icons (Facebook, Instagram, Yelp) use the same visual treatment: their original colored source images are transformed to lime-green via a CSS filter, creating a unified monochromatic appearance. On hover, they invert to near-black against a lime-green background.

CSS FILTER — DEFAULT STATE (LIME-GREEN)

```
/* Default: transforms any colored icon to lime-green */
filter: brightness(0) saturate(100%) invert(72%) sepia(50%)
       saturate(500%) hue-rotate(40deg) brightness(95%) contrast(90%);
```

CSS FILTER — HOVER STATE (NEAR-BLACK ON LIME)

```
/* Hover: transforms to near-black */
filter: brightness(0) saturate(0%) invert(10%);
```

PLACEMENT

- ✓ Sidebar: Fixed left edge, vertically centered, 40×40px per icon (desktop only, hidden on mobile)
- ✓ Footer: Inline row within the first column, 36×36px per icon with border

IMPLEMENTATION DETAIL

The filter technique ensures any new social icon can be added without manual color editing — simply apply the same CSS class and the filter automatically converts it to the brand's lime-green color.

CSS DESIGN TOKENS

The complete set of CSS custom properties used throughout the site. These serve as the single source of truth for the visual system.

```
:root {  
  /* Colors */  
  --lime: #ACD155;  
  --lime-bright: #BADA55;  
  --lime-light: #D3EA9C;  
  --dark: #262626;  
  --purple: #8138B7;  
  --lavender: #A37CBF;  
  --lavender-soft: rgba(163,124,191,.9);  
  --white: #FFFFFF;  
  --offwhite: #CFC8C0;  
  --ghost: rgba(255,255,255,.6);  
  --muted: rgba(255,255,255,.7);  
  --body-text: #CFC8C0;  
  
  /* Layout */  
  --max: 1140px;  
  --header: 78px;  
  
  /* Hover System */  
  --hover-transform: translateY(-3px) scale(1.02);  
  --hover-shadow: 0 14px 38px rgba(0,0,0,.28);  
  --hover-border: rgba(172,209,85,.5);  
}
```

GLOBAL HOVER SYSTEM

Every interactive element across the site shares a single consistent hover effect defined by three CSS custom properties. This includes cards, buttons, nav links, social icons, FAQ items, gallery items, and carousel arrows.

```
/* Applied to all interactive elements */  
.hoverable:hover, .btn:hover, .nav-link:hover, .card:hover, ... {  
  transform: var(--hover-transform);  
  box-shadow: var(--hover-shadow);  
  border-color: var(--hover-border);  
}
```

SELECTION COLOR

```
::selection { background: var(--lime); color: var(--dark); }
```

USAGE RULES

LOGO USAGE

DO ✓ Use the full logo (logo-transparent.png) for hero sections and large placements ✓ Use the spray gun icon (menu-logo.png) for navigation headers at 46px height ✓ Use the spray gun favicon for browser tabs and bookmarks ✓ Maintain transparent backgrounds on all logo variants ✓ Apply drop-shadow on hero logos over video/image backgrounds ✓ Keep adequate clear space around all logo marks	DON'T ✗ Don't stretch, skew, or distort any logo variant ✗ Don't change the logo colors from the original lime-green palette ✗ Don't place logos on light backgrounds without a dark container ✗ Don't use the full logo at small sizes where text becomes illegible ✗ Don't add rounded corners, gradients, or effects not in this guide ✗ Don't recreate or substitute the logos with different typefaces
---	---

COLOR USAGE

DO ✓ Use Lime (#ACD155) as the primary accent for all headlines, borders, and CTAs ✓ Use Charcoal (#262626) as the dominant background color ✓ Use Purple (#8138B7) sparingly for secondary highlights and franchise content ✓ Use rgba transparency values for subtle borders and hover states ✓ Maintain high contrast between lime elements and dark backgrounds	DON'T ✗ Don't introduce new colors outside the defined palette ✗ Don't use lime as a background for large text areas (readability issues) ✗ Don't use white as a background — the brand is dark-first ✗ Don't apply purple to primary navigation or main headlines ✗ Don't use saturated lime on lime (no lime text on lime background)
---	---

TYPOGRAPHY USAGE

DO ✓ Use Rubik Distressed exclusively for h1 and h2 headlines ✓ Use Oswald for h3 sub-headings within content sections ✓ Use Raleway for navigation, eyebrow labels, and button text ✓ Use Poppins for all body copy and paragraph text ✓ Maintain uppercase on all headlines, navigation, and buttons	DON'T ✗ Don't use Rubik Distressed for body text or small sizes ✗ Don't mix font families in the same hierarchy level ✗ Don't use lowercase for headlines or navigation items ✗ Don't substitute system fonts for the specified Google Fonts ✗ Don't reduce letter-spacing below the defined values
--	---

ICONOGRAPHY RULES

DO	DON'T
------------------	---------------------

- ✓ Use the standard SVG style: stroke #ACD155, width 1.5, square caps
- ✓ Display icons in a bordered box with lime border
- ✓ Keep icon sizes consistent: 26px within 50px icon boxes
- ✓ Apply the same CSS filter to social icons for lime-green uniformity

- ✗ Don't change icon stroke color from #ACD155
- ✗ Don't fill icons (they are stroke-only, no fill)
- ✗ Don't use rounded line caps (must be square)
- ✗ Don't show social icons in their original brand colors
